Int J Gynecol Obstet, 1993, 43: 363–366
International Federation of Gynecology and Obstetrics

Subject Index

Volume 43

Abdominal colposacropexy, massive incarcerated procidencia, urethropexy, primary procedure, 196
Abdominal pregnancy, clinical manifestations, diagnosis, management, 51
Abortion, free testosterone, SHBG, pregnancy, 151
Adenocarcinoma, vaginal neoplasm, pregnancy, 198
Amenorrhea, oral contraceptives, prolactin, estradiol, bromocriptine, clomiphene citrate, 177
Amniotic fluid volume, antepartum fetal surveillance, postdate pregnancy, biophysical profile, nonstress test, 145
Anal endosonography, anal sphincters, forceps, vacuum extractor, anorectal physiology, incontinence, 263
Anal sphincters, forceps, vacuum extractor, anal endosonography, anorectal physiology, incontinence, 263
Anaphylatoxins, complement activation, HELLP, hypertension, preeclampsia, pregnancy complications, 113
Anorectal physiology, anal sphincters, forceps, vacuum extractor, anal endosonography, incontinence, 263
Antenatal diagnosis, intracranial hemorrhage in utero, magnetic resonance imaging, unexplained fetal death, 57
Antepartum fetal surveillance, postdate pregnancy, biophysical profile, nonstress test, amniotic fluid volume, 145
Anterior abdominal wall defect, limb-body wall complex, prenatal diagnosis, fetography, body-stalk anomaly, 317
Antibiotics, prophylaxis, 257
Antimicrobial susceptibility pattern, *Klebseilla*, nosocomial urinary tract infections, hospitalized women, mortality rate, 201
Appendectomy, appendix, pelvic, hysterectomy, vaginal, 62
Appendix, pelvic, appendectomy, hysterectomy, vaginal, 62

Biophysical profile, antepartum fetal surveillance, postdate pregnancy, nonstress test, amniotic fluid volume, 145
Biophysical profile, nonstress test, oxytocin challenge test, Doppler velocimetry, fetal growth retardation, cordocentesis, 15
Birth trauma, femur, fracture, cesarean section, breech, 325
Birthweight, delivery characteristics, fetal health, 328
Body-stalk anomaly, limb-body wall complex, prenatal diagnosis, fetography, anterior abdominal wall defect, 317
Breast, diagnosis, screening, cancer, 3
Breech, femur, fracture, cesarean section, birth trauma, 325
Bromocriptine, amenorrhea, oral contraceptives, prolactin, estradiol, clomiphene citrate, 177

CA 125, Meigs syndrome, 64
Cancer, breast, diagnosis, screening, 3
Cesarean section, femur, fracture, breech, birth trauma, 325
Cervical biopsy, pre-invasive cervical carcinoma, Pap smear, colposcopy, 63
Cervical intraepithelial neoplasia, cervical screening, chemiluminescence, Pap smear, 289
Cervical screening, chemiluminescence, Pap smear, cervical intraepithelial neoplasia, 289
Chalmydia trachomatis, ectopic pregnancy, pelvic inflammatory disease, 271
Chemiluminescence, cervical screening, Pap smear, cervical intraepithelial neoplasia, 289
Classical cesarean section, neurofibromatosis type - I, dystocia, 61
Clinical manifestations, abdominal pregnancy, diagnosis, management, 51
Clomiphene citrate, amenorrhea, oral contraceptives, prolactin, estradiol, bromocriptine, 177
Colposcopy, pre-invasive cervical carcinoma, Pap smear, cervical biopsy, 63
Complement activation, anaphylatoxins, HELLP, hypertension, preeclampsia, pregnancy complications, 113
Computer, genetic counseling, national obstetric statistics, 323
Cordocentesis, nonstress test, oxytocin challenge test, biophysical profile, Doppler velocimetry, fetal growth retardation, 15

Deep transverse arrest, Kielland's forceps, vacuum extraction, manual rotation, 129
Delivery characteristics, birthweight, fetal health, 328
Diabetes, pregnancy, preeclampsia, prematurity, polyhydramnios, pyelonephritis, 21
Diagnosis, abdominal pregnancy, clinical manifestations, management, 51
Diagnosis, breast, screening, cancer, 3
Digoxin-immunoreactive substance, pregnancy, preeclampsia, 137
Donation, sperm, oocyte, pre-embryo, ethics, reproduction, 247
Doppler velocimetry, nonstress test, oxytocin challenge test, biophysical profile, fetal growth retardation, cordocentesis, 15
Dystocia, neurofibromatosis type - I, classical cesarean section, 61

Ectopic pregnancy, *Chalmydia trachomatis*, pelvic inflammatory disease, 271
Ectopic pregnancy, gamete, zygote, fertilization, 195
Ectopic, recurrent, repeat, second, 191

Elective repeat cesarean, respiratory morbidity, term neonates, 35
Endometrial ablation, hysteroscopy, menorrhagia, hysterectomy laser, 326
Endometrial carcinoma, progestin challenge test, postmenopause, 313
Endometrial, ovarian, malignancy, synchronous, 305
Endometriosis, interleukin-1, interleukin-5, interleukin-6, 45
Endometriosis, ovarian cyst, ultrasonography, 41
Estradiol, amenorrhea, oral contraceptives, prolactin, bromocriptine, clomiphene citrate, 177
Ethics, donation, sperm, oocyte, pre-embryo, reproduction, 247
Extrauterine pregnancy, transvaginal ultrasound, β-hCG, 277

Femal sterilization, silicone rubber, hysterectomy, histopathology, 181
Female pelis, magnetic resonance imaging, gadopentetate dimeglumine, uterine cancer, 297
Femur, fracture, cesarean section, breech, birth trauma, 325
Fertilization, gamete, zygote, ectopic pregnancy, 195
Fetal growth retardation, nonstress test, oxytocin challenge test biophysical profile, Doppler velocimetry, cordocentesis, 15
Fetal health, delivery characteristics, birthweight, 328
Fetography, limb-body wall complex, prenatal diagnosis, body-stalk anomaly, anterior abdominal wall defect, 317
Forceps, anal sphincters, vacuum extractor, anal endosonography, anorectal physiology, incontinence, 263
Fracture, femur, cesarean section, breech, birth trauma, 325
Free progesterone, progesterone, luteal, luteal phase defect, 163
Free testosterone, SHBG, abortion, pregnancy, 151
Fundal growth, symphysis fundus growth measurements, intrauterine growth retardation, 157

Gadopentetate dimeglumine, magnetic resonance imaging, uterine cancer, female pelvis, 297
Galactorrhea, hyperprolactinemia, high altitude, serum prolactin, menstrual disturbances, 169
Gamete, zygote, fertilization, ectopic pregnancy, 195
Genetic counseling, computer, national obstetric statistics, 323
Gestational diabetes, noninsulin dependent diabetes, large birthweight, neonatal morbidity, 29
GnRH agonist, hysteroscopic resection, 285
GnRH agonist, leiomyomatosis, ovarian remnant syndrome, 330
GnRH analogs, uterine fibroid, myomectomy, hysterectomy, 199

β-hCG, transvaginal ultrasound, extrauterine pregnancy, 277
HELLP, anaphylatoxins, complement activation, hypertension, preeclampsia, pregnancy complications, 113
High altitude, hyperprolactinemia, serum prolactin, menstrual disturbances, galactorrhea, 169
Histopathology, silicone rubber, hysterectomy, femal sterilization, 181
Hospitalized women, *Klebseilla*, nosocomial urinary tract infections, antimicrobial susceptibility pattern, mortality rate, 201
Hyperprolactinemia, high altitude, serum prolactin, menstrual disturbances, galactorrhea, 169
Hypertension, anaphylatoxins, complement activation, HELLP, preeclampsia, pregnancy complications, 113
Hysterectomy laser, endometrial ablation, hysteroscopy, menorrhagia, 326
Hysterectomy, GnRH analogs, uterine fibroid, myomectomy, 199
Hysterectomy, silicone rubber, femal sterilization, histopathology, 181
Hysterectomy, vaginal, appendectomy, appendix, pelvic, 62
Hysteroscopic resection, GnRH agonist, 285
Hysteroscopy, endometrial ablation, menorrhagia, hysterectomy laser, 326
Hysteroscopy, infertility, IUD, ultrasonography, 65

Incontinence, anal sphincters, forceps, vacuum extractor, anal endosonography, anorectal physiology, 263

Infertility, hysteroscopy, IUD, ultrasonography, 65
Interleukin-1, interleukin-5, interleukin-6, endometriosis, 45
Interleukin-5, interleukin-1, interleukin-6, endometriosis, 45
Interleukin-6, interleukin-1, interleukin-5, endometriosis, 45
Intra-uterine growth retardation, symphysis fundus growth measurements, fundal growth, 157
Intracranial hemorrhage in utero, antenatal diagnosis, magnetic resonance imaging, unexplained fetal death, 57
IUD, hysteroscopy, infertility, ultrasonography, 65

Kielland's forceps, deep transverse arrest, vacuum extraction, manual rotation, 129
Klebseilla, nosocomial urinary tract infections, hospitalized women, antimicrobial susceptibility pattern, mortality rate, 201

Large birthweight, gestational diabetes, noninsulin dependent diabetes, neonatal morbidity, 29
Leiomyomatosis, GnRH agonist, ovarian remnant syndrome, 330
Limb-body wall complex, prenatal diagnosis, fetography, body-stalk anomaly, anterior abdominal wall defect, 317
Luteal phase defect, progesterone, free progesterone, luteal, 163
Luteal, progesterone, free progesterone, luteal phase defect, 163

Magnetic resonance imaging, antenatal diagnosis, intracranial hemorrhage in utero, unexplained fetal death, 57
Magnetic resonance imaging, gadopentetate dimeglumine, uterine cancer, female pelvis, 297
Malignancy, ovarian, endometrial, synchronous, 305
Management, abdominal pregnancy, clinical manifestations, diagnosis, 51
Manual rotation, deep transverse arrest, Kielland's forceps, vacuum extraction, 129
Massive incarcerated procidencia, abdominal colposacropexy, urethropexy, primary procedure, 196
Maternal mortality ratio, Turkey, maternity hospital, 327

Maternity hospital, Turkey, maternal mortality ratio, 327
Meigs syndrome, CA 125, 64
Menorrhagia, endometrial ablation, hysteroscopy, hysterectomy laser, 326
Menstrual disturbances, hyperprolactinemia, high altitude, serum prolactin, galactorrhea, 169
Mortality rate, *Klebseilla*, nosocomial urinary tract infections, hospitalized women, antimicrobial susceptibility pattern, 201
Myomectomy, GnRH analogs, uterine fibroid, hysterectomy, 199

National obstetric statistics, computer, genetic counseling, 323
Neonatal morbidity, gestational diabetes, noninsulin dependent diabetes, large birthweight, 29 Neurofibromatosis type - I, classical cesarean section, dystocia, 61
Noninsulin dependent diabetes, gestational diabetes, large birthweight, neonatal morbidity, 29
Nonstress test, antepartum fetal surveillance, postdate pregnancy, biophysical profile, amniotic fluid volume, 145
Nonstress test, oxytocin challenge test, biophysical profile, Doppler velocimetry, fetal growth retardation, cordocentesis, 15
Nosocomial urinary tract infections, *Klebseilla*, hospitalized women, antimicrobial susceptibility pattern, mortality rate, 201

Oocyte, donation, sperm, pre-embryo, ethics, reproduction, 247
Oral contraceptives, amenorrhea, prolactin, estradiol, bromocriptine, clomiphene citrate, 177
Ovarian cyst, endometriosis, ultrasonography, 41
Ovarian remnant syndrome, GnRH agonist, leiomyomatosis, 330
Ovarian, endometrial, malignancy, synchronous, 305
Oxytocin challenge test, nonstress test, biophysical profile, Doppler velocimetry, fetal growth retardation, cordocentesis, 15

Pap smear, cervical screening, chemiluminescence, cervical intraepithelial neoplasia, 289
Pap smear, pre-invasive cervical carcinoma, colposcopy, cervical biopsy, 63
Pelvic inflammatory disease, ectopic pregnancy, *Chalmydia trachomatis*, 271
Placental implantation, postpartum hemorrhage, uterine atony, 197
Polyhydramnios, diabetes, pregnancy, preeclampsia, prematurity, pyelonephritis, 21
Postdate pregnancy, antepartum fetal surveillance, biophysical profile, nonstress test, amniotic fluid volume, 145
Postmenopause, endometrial carcinoma, progestin challenge test, 313
Postpartum hemorrhage, uterine atony, placental implantation, 197
Pre-embryo, donation, sperm, oocyte, ethics, reproduction, 247
Pre-invasive cervical carcinoma, Pap smear, colposcopy, cervical biopsy, 63
Preeclampsia, anaphylatoxins, complement activation, HELLP, hypertension, pregnancy complications, 113
Preeclampsia, diabetes, pregnancy, prematurity, polyhydramnios, pyelonephritis, 21
Preeclampsia, pregnancy, digoxin-immunoreactive substance, 137
Pregnancy, vaginal neoplasm, adenocarcinoma, 198
Pregnancy complications, anaphylatoxins, complement activation, HELLP, hypertension, preeclampsia, 113
Pregnancy, diabetes, preeclampsia, prematurity, polyhydramnios, pyelonephritis, 21
Pregnancy, free testosterone, SHBG, abortion, 151
Pregnancy, preeclampsia, digoxin-immunoreactive substance, 137
Prematurity, diabetes, pregnancy, preeclampsia, polyhydramnios, pyelonephritis, 21
Prenatal diagnosis, limb-body wall complex, fetography, body-stalk anomaly, anterior abdominal wall defect, 317
Primary procedure, massive incarcerated procidencia, abdominal colposacropexy, urethropexy, 196
Progesterone, free progesterone, luteal, luteal phase defect, 163
Progestin challenge test, endometrial carcinoma, postmenopause, 313
Prolactin, amenorrhea, oral contraceptives, estradiol, bromocriptine, clomiphene citrate, 177
Prophylaxis, antibiotics, 257
Pyelonephritis, diabetes, pregnancy, preeclampsia, prematurity, polyhydramnios, 21

Recurrent, ectopic, repeat, second, 191
Repeat, ectopic, recurrent, second, 191
Reproduction, donation, sperm, oocyte, pre-embryo, ethics, 247
Respiratory morbidity, elective repeat cesarean, term neonates, 35

Screening, breast, diagnosis, cancer, 3
Second, ectopic, recurrent, repeat, 191
Serum prolactin, hyperprolactinemia, high altitude, menstrual disturbances, galactorrhea, 169
SHBG, free testosterone, abortion, pregnancy, 151
Silicone rubber, hysterectomy, femal sterilization, histopathology, 181
Sperm, donation, oocyte, pre-embryo, ethics, reproduction, 247
Symphysis fundus growth measurements, fundal growth, intrauterine growth retardation, 157
Synchronous, ovarian, endometrial, malignancy, 305

Term neonates, respiratory morbidity, elective repeat cesarean, 35
Transvaginal ultrasound, extrauterine pregnancy, β-hCG, 277
Turkey, maternity hospital, maternal mortality ratio, 327

Ultrasonography, endometriosis, ovarian cyst, 41
Ultrasonography, hysteroscopy, infertility, IUD, 65
Unexplained fetal death, antenatal diagnosis, intracranial hemorrhage in utero, magnetic resonance imaging, 57

Urethropexy, massive incarcerated procidencia, abdominal colposacropexy, primary procedure, 196
Uterine atony, postpartum hemorrhage, placental implantation, 197
Uterine cancer, magnetic resonance imaging, gadopentetate dimeglumine, female pelvis, 297
Uterine fibroid, GnRH analogs, myomectomy, hysterectomy, 199

Vacuum extraction, deep transverse arrest, Kielland's forceps, manual rotation, 129
Vacuum extractor, anal sphincters, forceps, anal endosonography, anorectal physiology, incontinence, 263
Vaginal neoplasm, pregnancy, adenocarcinoma, 198

Zygote, gamete, fertilization, ectopic pregnancy, 195
